

OUR PORTFOLIO

ABOUT US

Elegant Shade aims for a local and an international leading market position by delivering outstanding solutions for interior

and exterior problems, shading solutions, and many other services.

Elegant shade aims to keeping principled morals and values as

our foundation for the success and development to meet the needs of our society.

Users working to cover the local and international market providing the finest and most elegant products to our clients that

satisfy their high tastes and their different desires and needs, allowing

us to become the leaders in our category.

We are dedicated to supplying elegant and special products of the highest quality, yet at reasonable prices to satisfy the high taste of costumers.

We are dedicated to serve every costumer with trust, honesty, transparency, and responsibility at all levels.

We provide a friendly and a professional atmosphere for our highly trained team members to gain our costumers' admiration in the world of construction, decoration, and renovation.

OUR VISION

01

To be a leading and trusted company locally and internationally in shading solutions and interior and exterior design, delivering innovative, elegant, and high-quality solutions that exceed client expectations and contribute to enhancing modern living environments.

02

Support the achievement of Saudi Arabia's Vision 2030 by providing innovative and sustainable solutions in shading and design.

03

Actively participate in all current and future projects across the Kingdom, reinforcing our leading position in the market.

04

- Commit to the highest standards of quality and excellence in all our products and services to meet client expectations efficiently and professionally.
- Promote innovation and the development of creative solutions that align with market needs and contribute to enhancing living environments and infrastructure.

OUR MISSION

01

To deliver premium shading and architectural solutions that combine elegance, durability, and high performance.

02

To support the Kingdom of Saudi Arabia's Vision 2030 by contributing to sustainable, modern, and innovative projects.

03

To build long-term partnerships with our clients through trust, quality, and consistent excellence in execution.

04

To continuously develop our expertise, materials, and technologies to meet the evolving demands of residential and commercial projects.

ABOUT OUR SERVICES & PRODUCTS

01

08	

01	Elegant shade
02	Sontext manufactures and distributes a large range of Custom Designed and decorative, sound absorbing wall and ceiling panel systems across Australia and throughout the world.
03	Bandalux is famous for its know-how in solar protection systems. We create and develop innovative, high-performance shades and systems that help improve energy efficiency in buildings and the comfort of their occupants.
04	SKIA is a company with a core focus on providing leading shading systems, ideal for any space, that stand out for their top quality, ergonomic design and luxurious appearance.
05	At Saros, we've been delivering stretch ceilings and custom lighting solutions for over 25 years, exporting our goods to over 60 countries worldwide.
06	The only brand of WPC profiles manufactured and marketed in Spain whose EPD declaration is verified by Tecnia Certification, with ENAC accreditation and registered in The International EPD® System-Environdec. In addition to this, we have the Environmental Product Declaration, verified and published by GBCe.
07	<u>Parklex Prodema</u> is the merger of two international brands specialised in wood coverings for architecture. For decades, they were competitors in the architecture, interior design, and construction industry.
08	<u>Fibre-cement</u> , woven from air, water, cement, cellulose, and organic fibers, embodies its unique authenticity. Drawing inspiration directly from architects like you, new ideas for the tactile and visual aspects of EQUITONE panels emerge through workshops and close collaboration.

ELEGANT SHADE SERVICES

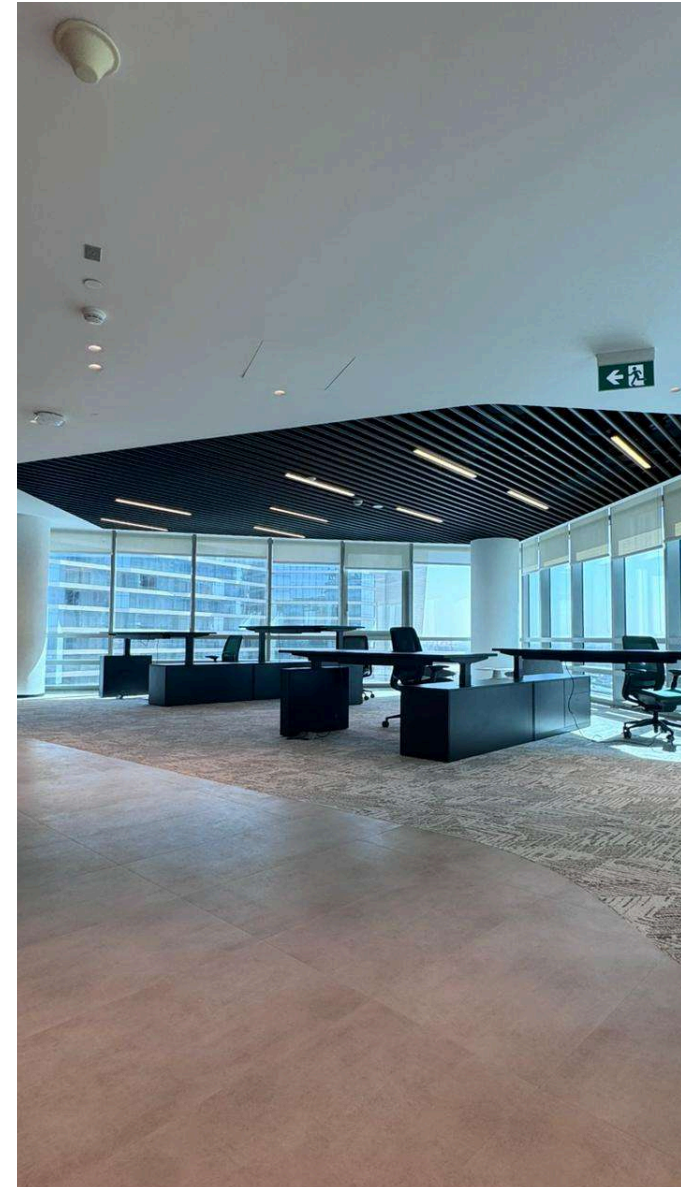

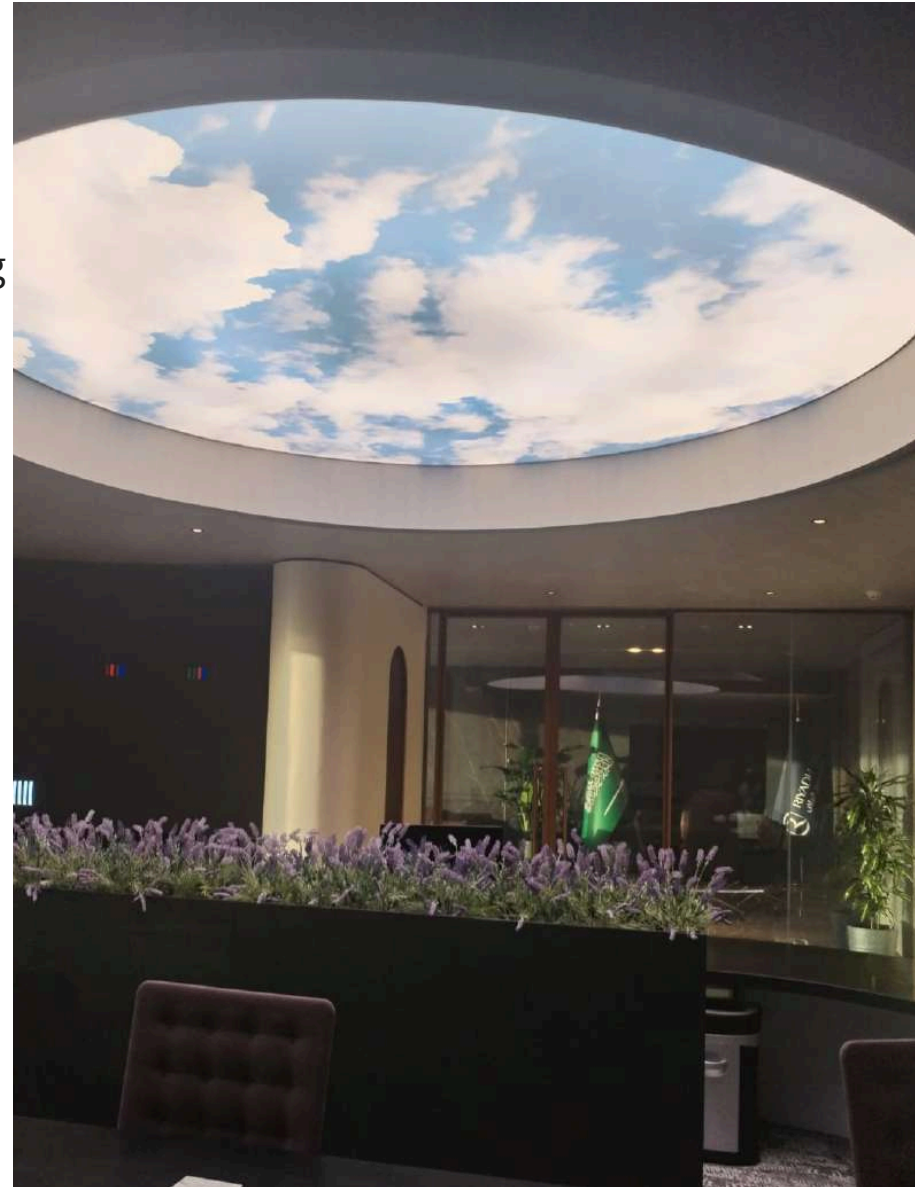

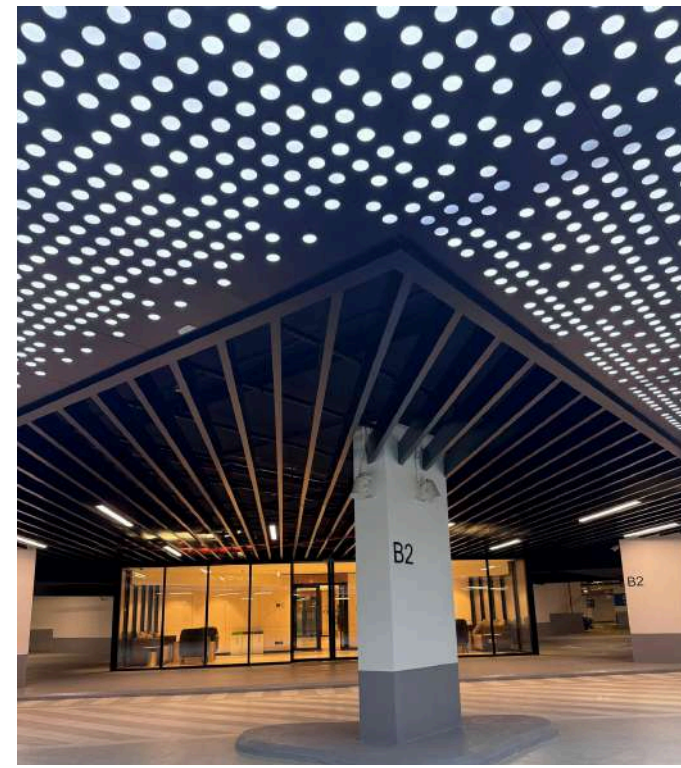

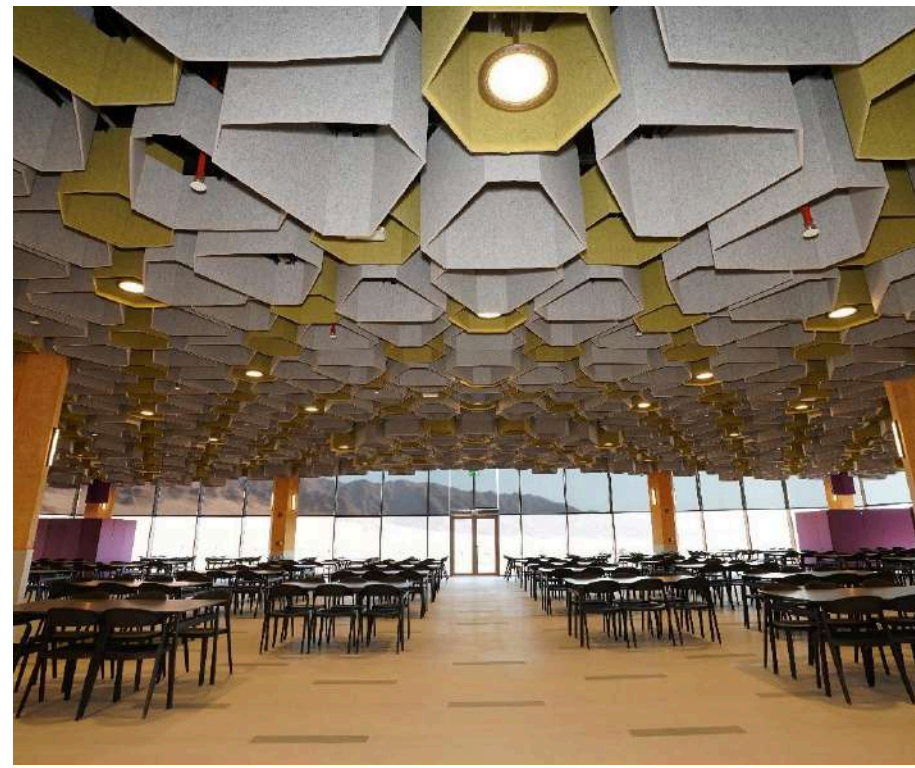

ELEGANT SHADE is a specialized company in the supply and installation of premium materials, providing architectural shading and covering solutions for residential and commercial projects. We combine quality, elegant design, and functional efficiency to deliver tailored solutions that meet diverse architectural requirements.

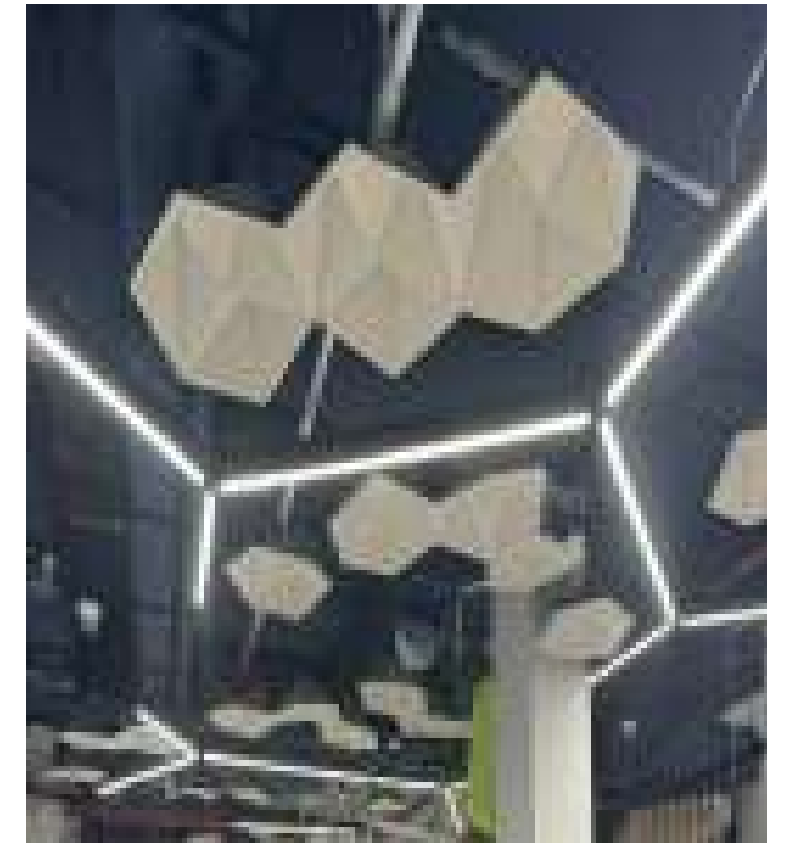

With carefully selected materials and advanced technologies, **ELEGANT SHADE** ensures high performance, durability, and compliance with engineering and aesthetic standards. We are committed to delivering integrated services from design and consultation to installation and handover, building long-term partnerships based on trust and professionalism

— ACOUSTIC SOLUTIONS. BETTER SPACES. —

PET ACOUSTIC PANELS & BAFFLES | SUSTAINABLE. DURABLE. EFFECTIVE.

SHADING
SOLUTIONS

BANDALUX

- Bandalux has been developing, manufacturing and selling high-range shades and drapes from 1986. Personalized sun protection solutions manufactured using the latest technology in materials and systems. With consolidated experience in the sector and more than 30,000 m2 in 4 production plants, Bandalux has become a benchmark for innovation and state-of-the-art sunlight management solutions.
- Blinds and shades for indoor and outdoor use
Sun protection systems that integrate perfectly into the building design and architecture.

OUTDOOR SHADING SOLUTIONS

Straight lines, clean surfaces, premium look. Ideal for any space. It is a system of opening and closing pergola, ergonomic design and modern aesthetics. Its frame consists of an aluminum front parapet with an integrated gutter, while the aluminum columns play a double role, that of supporting the structure, but also of rainwater runoff. Its roof is made of Block-out PVC and has the ability to remain closed, fully open or remain in any intermediate position chosen by the user. Optionally, its movement can be electronically controlled by weather sensors, such as air sensor, sun-air sensor, rain sensor. It is combined with 75x150mm or 150x150mm columns. Maximum dimensions covered 13,000 x 7,500 mm with one system. Fully remote-controlled. Compatible with RTS or io technology.

STRETCH CEILING SOLUTIONS

SAROS
DESIGN
stretch ceilings

Saros stretch ceilings are the perfect blend of aesthetics and functionality. Available in both PVC and textile options, our ceilings offer:

- Over 180 colors and finishes (browse our catalog at Downloads)
- Up to 5-meter width for large seamless ceilings
- PVC and textile options
- Images print on ceilings up to 5 meters wide, with no seams across images
- Multi-level and spatial structures designed for easy installation
- Acoustic solutions for sound optimization
- Fire resistance rating: Bs1d0 and Bs2d0, difficult to ignite
- Fast production starting from 1 day
- 10-year warranty
- Certified: CE, ISO 9001:2015

All are backed by a fast, clean installation process.

WPC CLADDING SOLUTIONS

At Tarimatec, our value proposition begins with Ecofiber Stone Composite – a unique material that unites sustainability, durability and design. What makes it so special? Its innovative, environmentally responsible composition. Ecofiber Stone Composite goes far beyond conventional wood plastic composite (WPC). It is made up of three key elements that work together to deliver outstanding physical properties and a positive environmental impact.

RISE HUSK

LIMESTONE

POLYVINYL CHLORIDE (PVC)

FACADE CLADDING SOLUTIONS

PARKLEX PRODEMA

Specialists in durable natural timber

We use technology to transform natural timber veneers into panels that require no further maintenance, for installation in ventilated façades, suspended ceilings, and interior cladding and flooring.

The most durable timber for interiors

We process natural timber so that it can be installed in high-traffic areas such as hotels, offices, hospitals, and commercial spaces, complying with specific technical regulations and standards.

Panels with natural timber

Parklex Prodema panels feature a surface layer with natural timber as opposed to printed paper, bringing a high-quality feel to facades and interiors.

NATURAL WOOD

NATURCLAD-W has natural wood surface layer 0.6mm thick. NATURCLAD-B is manufactured with a natural wood veneer. They offer the aesthetic naturalness that wood-imitation solutions cannot provide.

RESISTANT TO EXTREME ATMOSPHERIC AGENTS

After 3,000 hours of exposure, the material should have a rating variation of >4 in appearance, and a rating of 3+ in contrast (EN 438-6:2005).

NATURCLAD-W and NATURCLAD-B attain these values following exposure of up to 5 times greater than

SUSTAINABLE

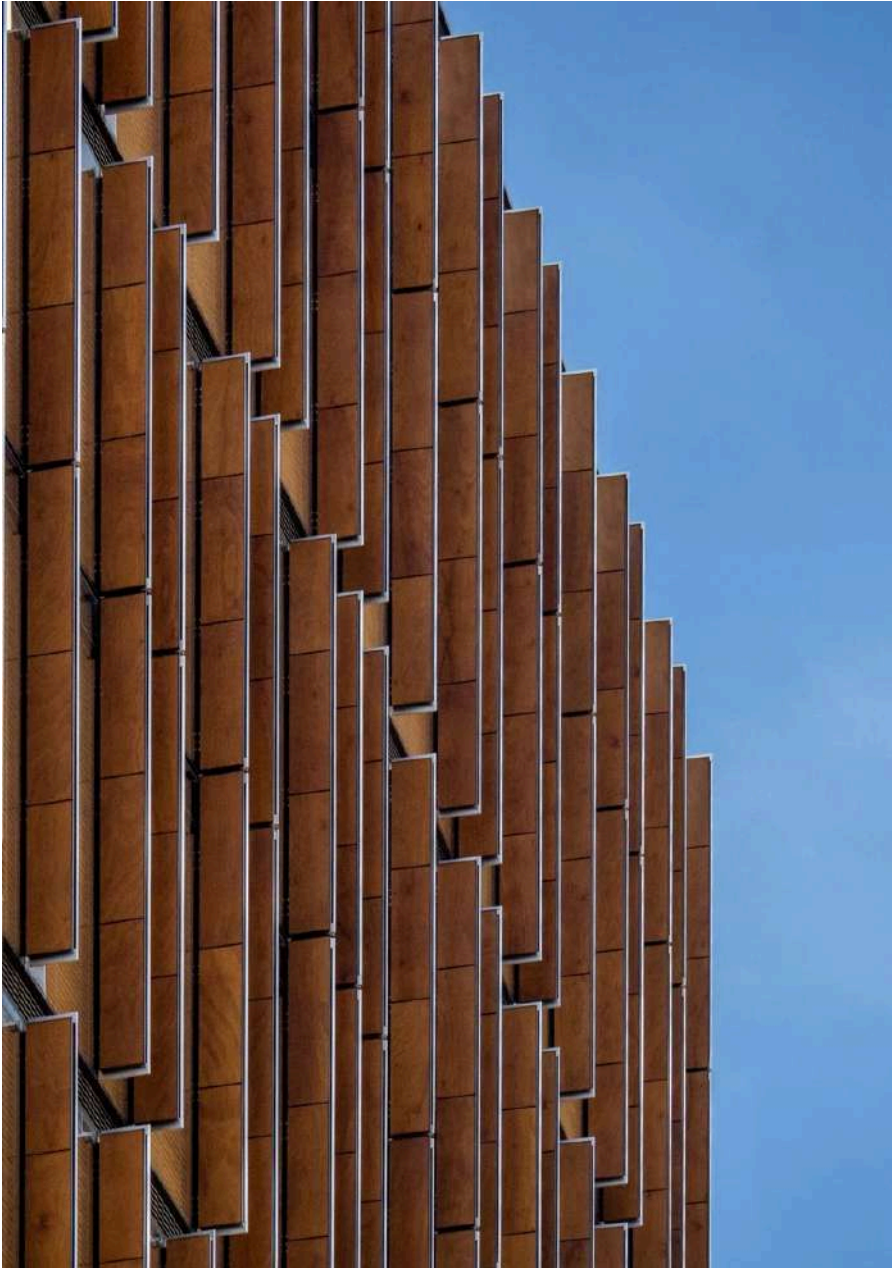

Can be supplied with the PEFC Certificate (Program for the Endorsement of Forest Certification) and has the EPD (Environmental Product Declaration).

We have a document with information on the product's compliance with LEED credits.

MAINTENANCE FREE

The surface composition of the boards protects the wood from the most extreme weather conditions, eliminating any need for subsequent treatment.

FACADE CLADDING SOLUTIONS

EQUITONE
Fibre cement facade materials

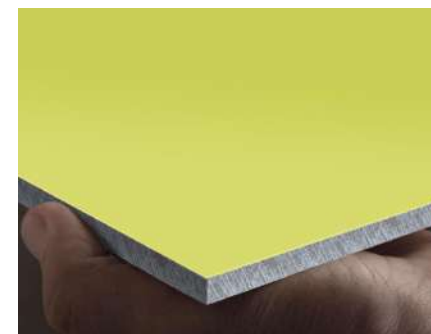

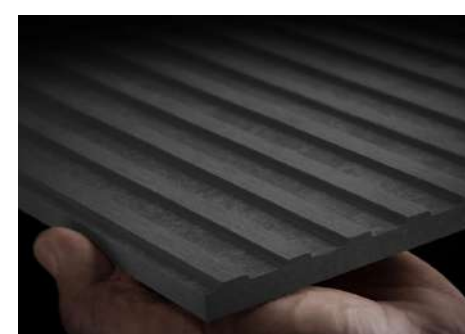

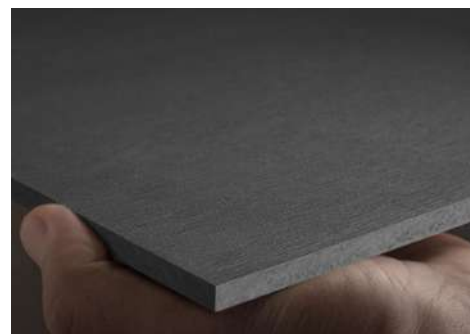

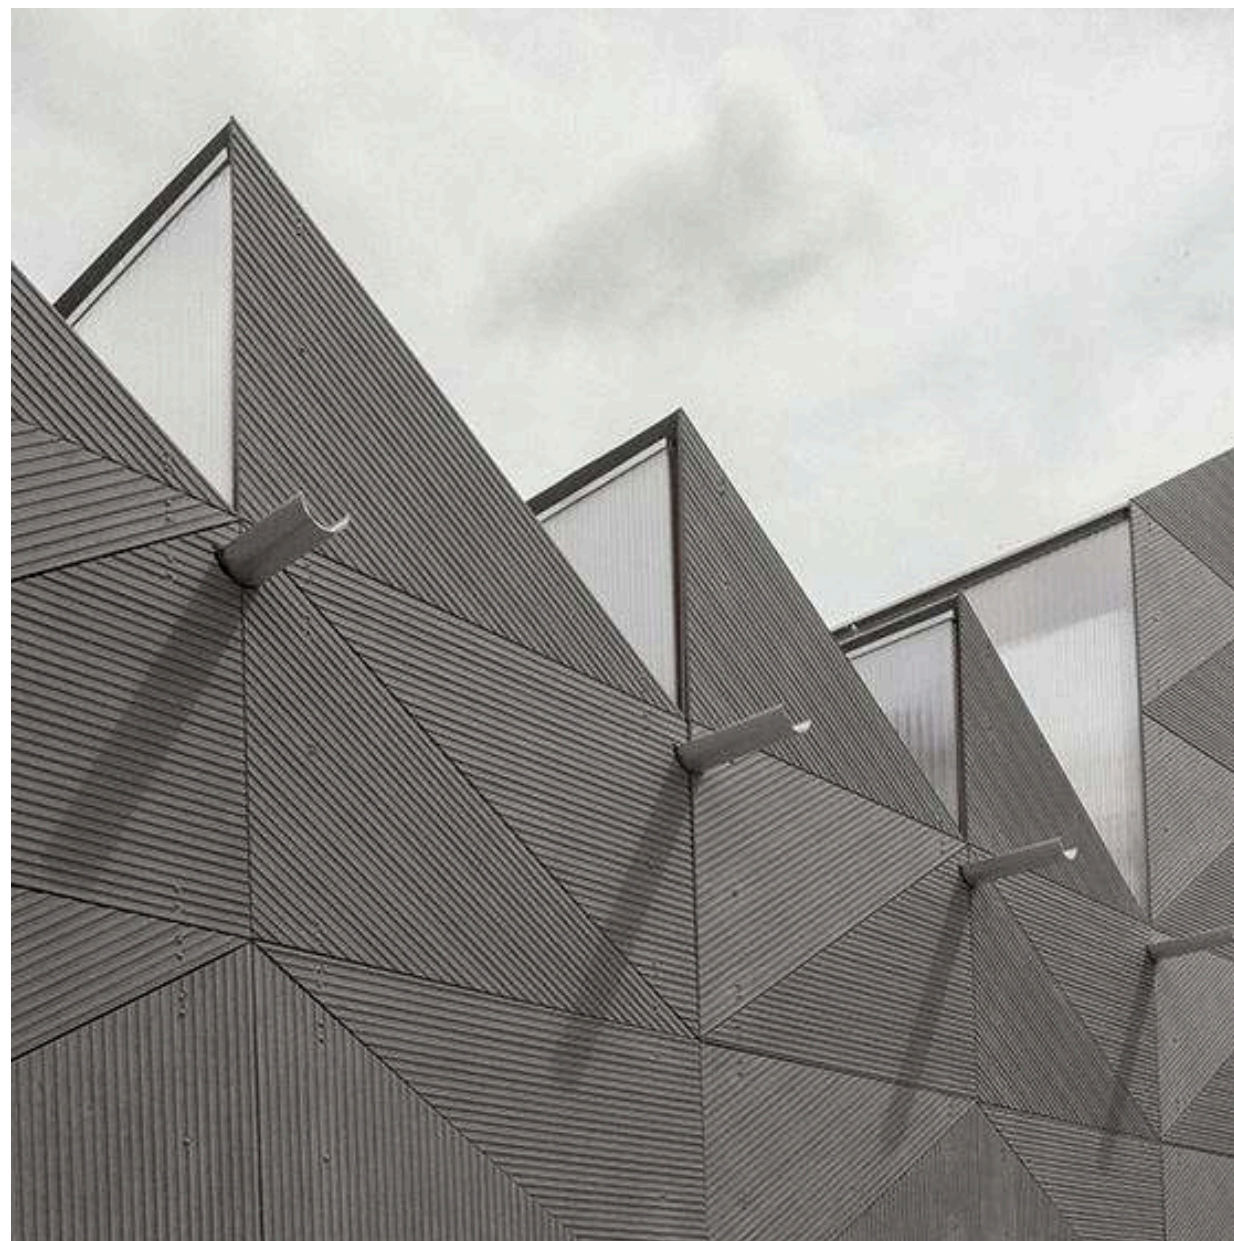

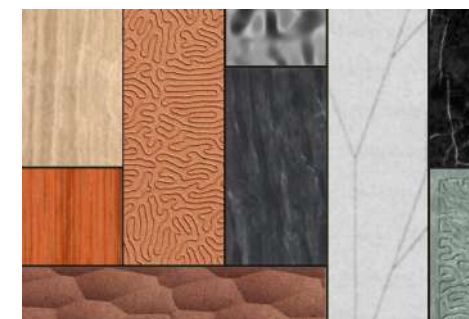

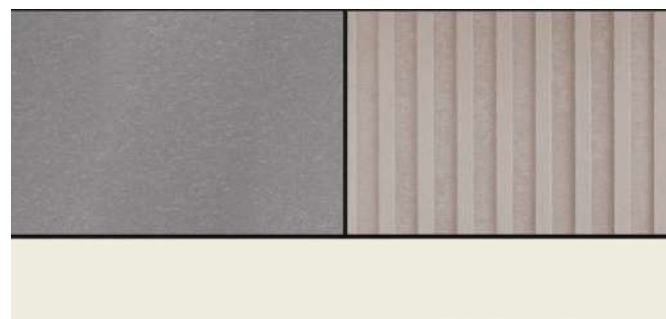

EQUITONE façade panels are made from water, Portland cement, cellulose fibers, and natural minerals, forming a durable, low-impact material that meets the demands of circular construction. Designed for longevity, flexibility, and end-of-life reuse, our fiber cement supports the full building lifecycle.

The power of fiber cement

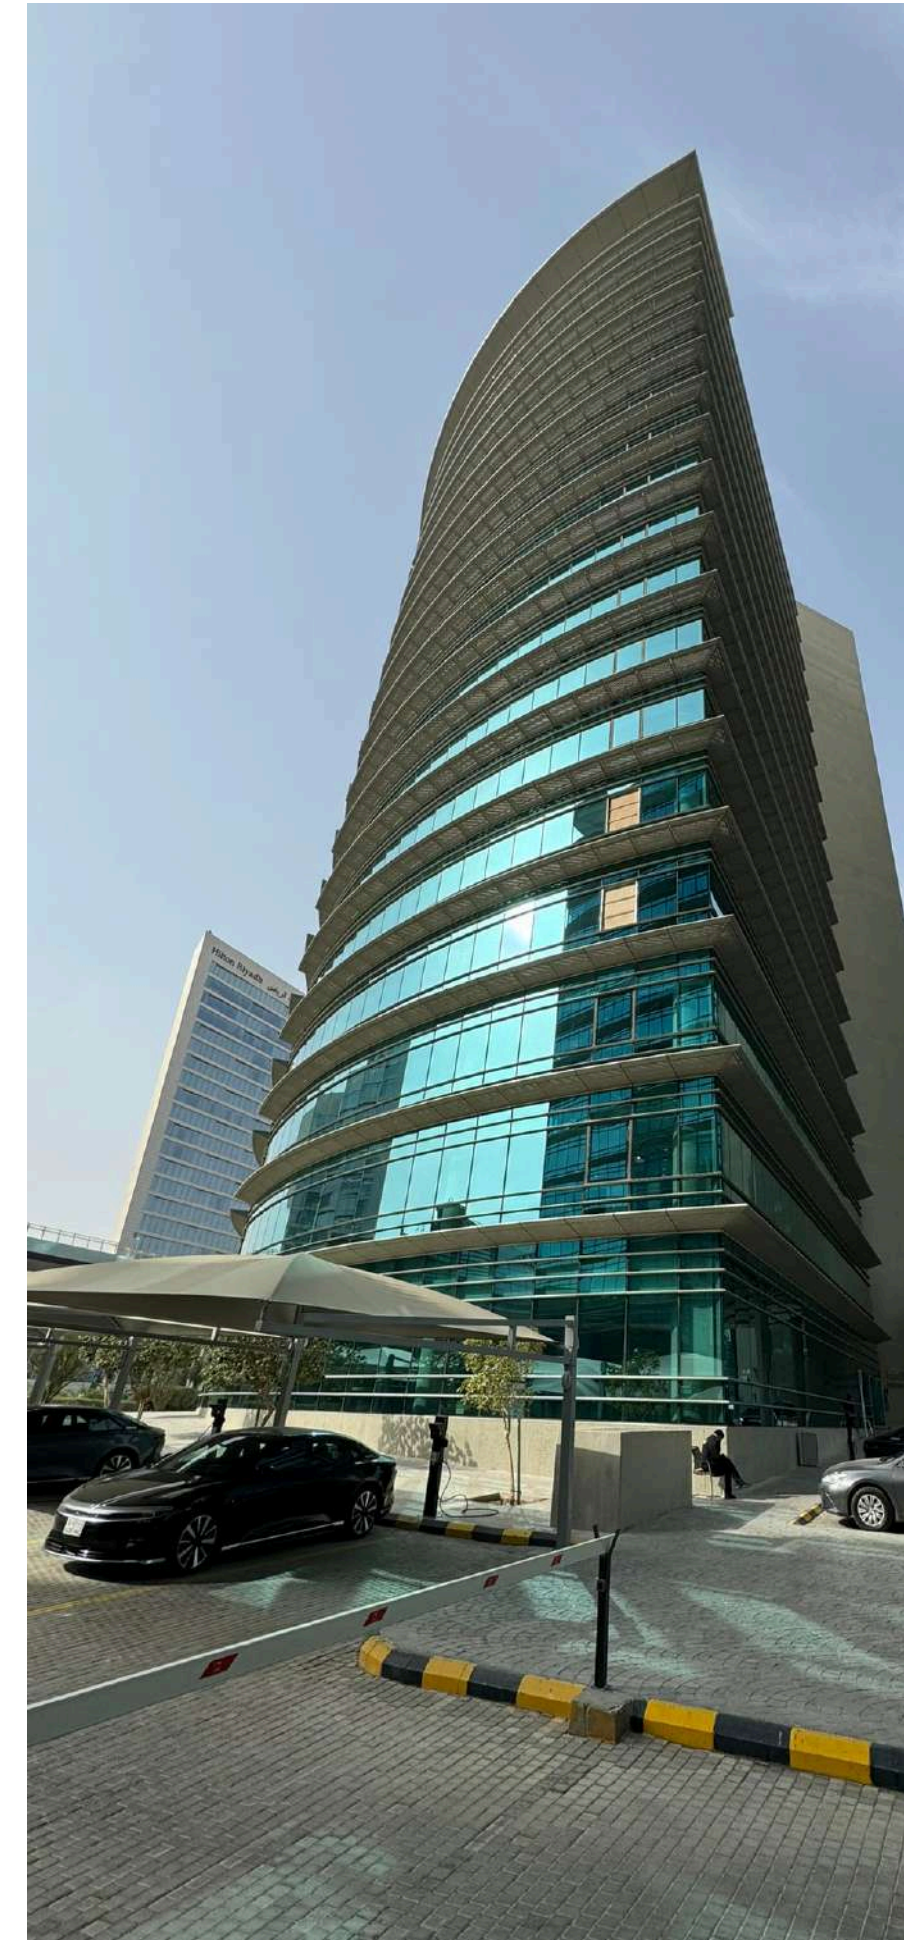

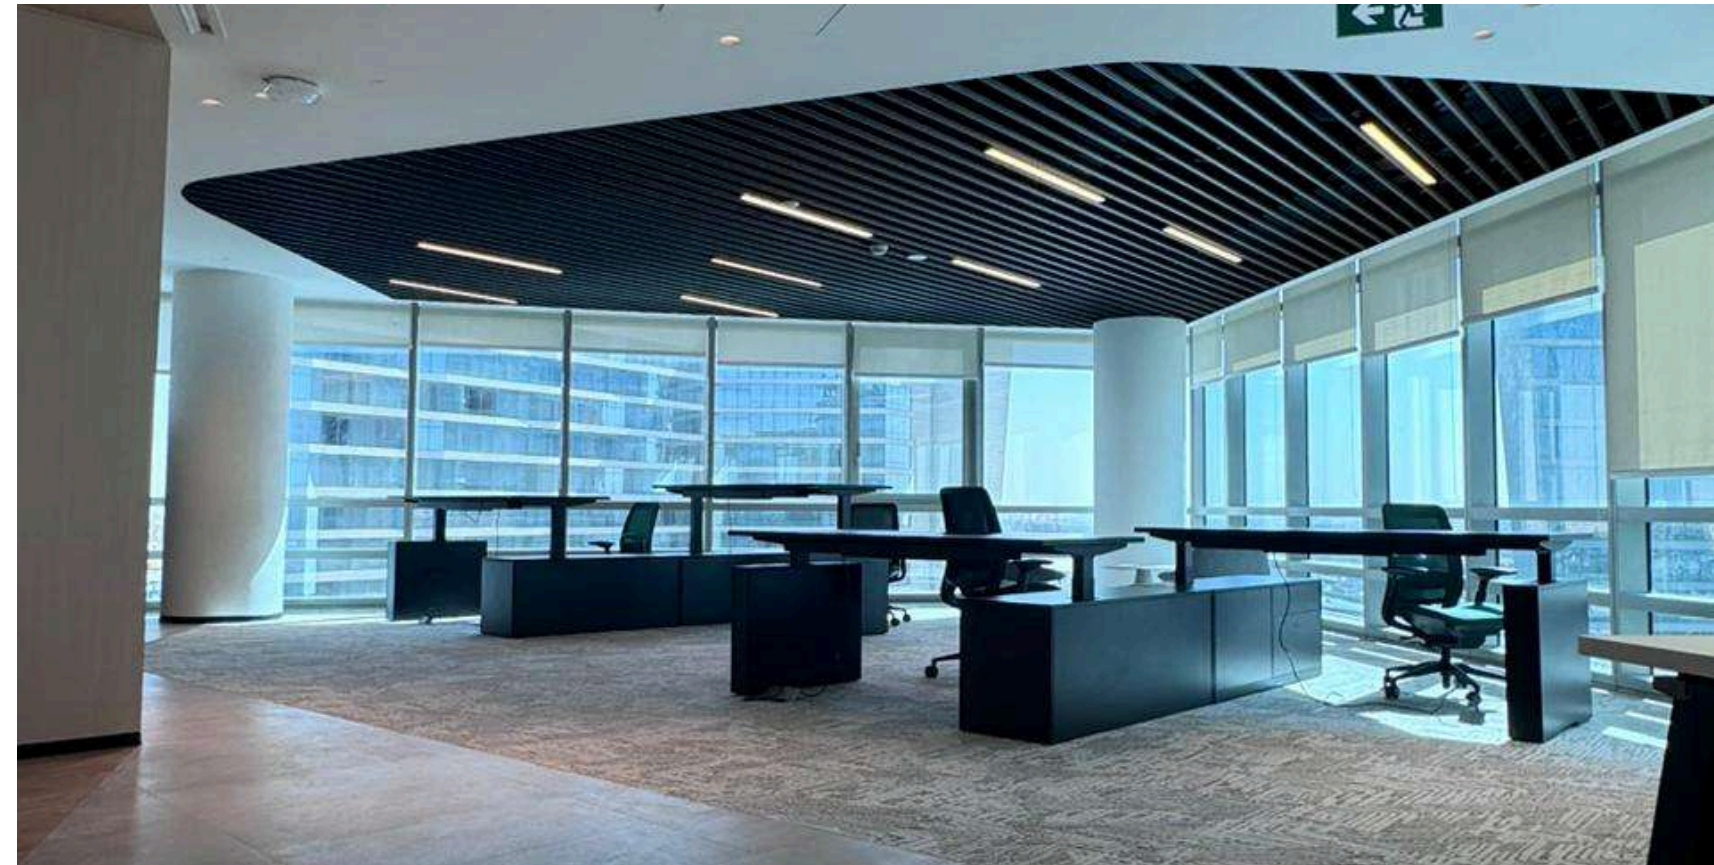

Fiber cement is a composite building material consisting of sand, water, cement, and cellulose fibers, giving a raw and unfinished character to each EQUITONE panel.

- | | | |
|---|--|---|
| <p>Recyclable
100% recyclable fibre cement, suitable for closed-loop façade systems.</p> | <p>Durable (+50 years)
Designed to perform for decades with minimal maintenance.</p> | <p>Low material usage/m²
Optimised panel format reduces material waste on-site.</p> |
| <p>Lightweight
Lighter than many alternatives, simplifying transport and installation.</p> | <p>Low maintenance
Resistant to weather, UV, and fading. Minimal cleaning required.</p> | <p>Modular
Compatible with ventilated façade substructures and easy to disassemble.</p> |

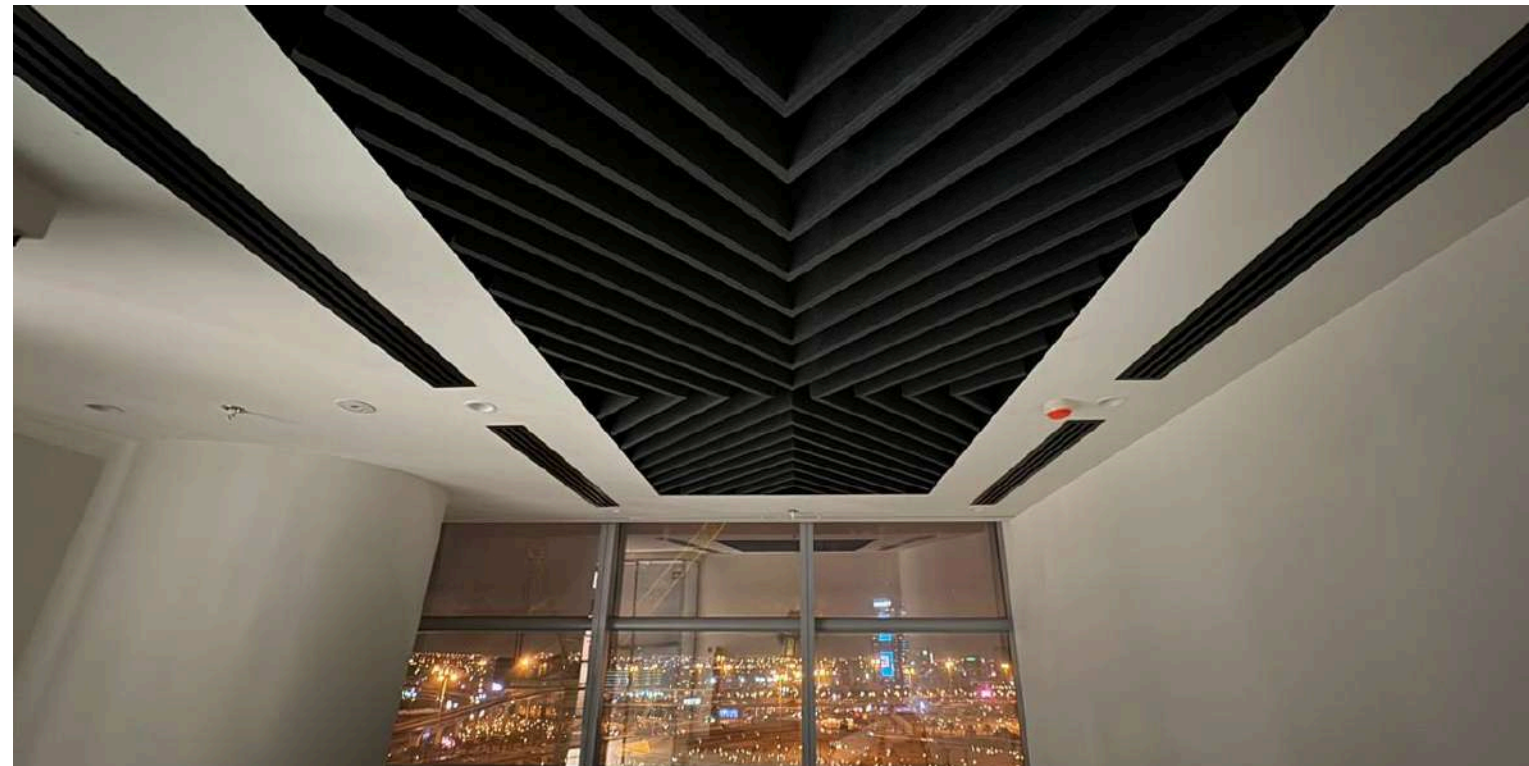

OUR PROJECT

Our portfolio reflects a diverse range of successfully delivered residential, commercial, and architectural projects. Each project is executed with a strong focus on quality, precision, and design excellence, demonstrating our commitment to meeting client requirements and exceeding expectations.
